

Classic

Classic Horsebox

Due to popular demand, our Classic Horsebox range has been extended. Three of our horsebox models, the HB401, HB505 and HB510 are now available with the distinctive Classic look.

The Classic range offers unique features not available on our standard models and is available in either black or silver. Both colours are fitted with a silver roof, a re-styled mudguard and silver grey interior.

But the refinements don't stop there. The groom's door comes complete with a stylish flush fitting lock, which provides more convenient opening and closing from the outside. In addition the new lock also permits the door to be closed and locked from the inside providing extra convenience and flexibility to the user.

Two sliding windows fitted over the groom's door and front ramp come as standard on the Classic. These allow additional ventilation for the horses comfort. The hinges, lynch pins and door furniture are specified in stainless steel.

The finishing touches are stylish wheel trims which complete the classic appearance of this horsebox.

Standard Features

Classic branding

Special decals in black and silver finish distinguish the Classic from other models.

Hinges and fittings

Stainless steel door hinges and furniture enhance the trailer's finer details.

Sliding window

Two sliding windows offer the option to increase ventilation as required.

The Classic models have all the benefits of our standard horseboxes plus additional features detailed in this brochure. For further information on the Ifor Williams Horsebox range please request a brochure from your local distributor.

Mudguard

The new look mudguards help to distinguish the Classic from the standard model.

Lockable Groom's door

The new flush fitting lock fitted for the convenience of the user.

Lock cover

Providing a tough plastic protective cover to the door latch mechanism with door strengthening for added security.
